Accommodation Plans

The Firm is committed to accommodating people with disabilities up to a point of undue hardship and will use the following process to identify and meet employee accommodation needs:

Step 1: Recognize the Need for Accommodation

Accommodation can be requested by the employee or identified by the employee's manager/human resources.

Step 2: Gather relevant information and asses individual needs

(The employee is an active participant in this step)

- Information will be collected on the employee's functional abilities, not the nature of the employee's disability.

- The employee's personal information, including medical information, is kept secure and dealt with in a confidential manner. It will only be disclosed to individuals who need it to perform the accommodation process.
- The employee and their manager and human resources will work together to find the most appropriate accommodation.
- A medical or other expert may be engaged (at the company's expense) to help determine if/how the employee's needs can be accommodated
- The employee may ask a health and safety representative to participate in the process.

Step 3: Write an individual accommodation plan

After identifying the most appropriate accommodation(s), the details will be documented in a written plan, including:

- What accommodation(s) will be provided
- How to make information accessible to the employee, including accessible formats and communication supports
- Employee emergency information and/or emergency response plan (if applicable)
- When the plan will be reviewed and updated

Human Resources will give the employee in an accessible format (if required), a copy of the individual accommodation plan, or written reasons for denying accommodation.

Step 4: Implement, monitor and update the plan

After implanting the accommodation plan, the employee, their manager and the human resources manager will monitor and review the plan to ensure that it is effective. Formal reviews and updates will take place on the mutually agreed upon, predetermined schedule in the employee's accommodation plan. If the accommodation is no longer appropriate, the plan will be reassessed by the employee, their manager and the human resources manager. Step 2 of the process will be repeated, and the plan will be updated accordingly. The accommodation plan will also be reviewed and updated if:

- The employee's work location or position changes
- The nature of the employee's disability changes

Return to Work Plans

The Firm is committed to supporting employees who have been absent from work due to a disability up to a point of undue hardship. We will use the following process to help

employees who require accommodation to return to work:

Step 1: Initiate the leave and stay in contact with employee

If an employee needs to take a disability leave, they will inform their manager and human resources. The employee and manager will maintain regular contact, with the employee's consent, to address any problems that may arise and facilitate the return to work process.

Step 2: Gather relevant information and assess individual needs

The employee and manager will work together to share information and find the most appropriate accommodation, for example:

Manager/Human Resources

- Provides the employee with return to work information
- Helps resolve any problems with treatment if requested to do so by the employee
- Maintains regular contact with the employee
- Ensures work practices are safe for returning employee
- Assists with identifying accommodations
- Assists with analyzing the demands of each job task

Employee

- Gets and follows the appropriate medical treatment
- Provides updates about their progress, including information about his/her functional ability to perform the job
- Provides his/her health care provider with the return to work information
- Health care provider(s) and health and safety professional(s) may also participate in the process, if needed.

Step 3: Develop a return to work plan

After identifying the most appropriate accommodation, safety considerations and any transitional measures, capture the details in a written plan. Depending on circumstances, the employee may:

- return to the original position
- return to the original position with accommodation(s) on a temporary or permanent basis

- return to an alternate position on a temporary or permanent basis

The return to work plan should be attached to the employee's individual accommodation plan.

Step 4: Implement, monitor and update the plan

After implementing the return to work plan, the employee and manager/human resources will monitor and review the plan regularly to ensure that it remains effective. If the accommodation is no longer appropriate, they will reassess the situation (step 2) and update the plan.
