

GERMAN DESK. Your platform for a successful start in Denmark

For many of our clients, the global market is already their second home. For others, it is an opportunity well within their reach.

When it comes to tax consulting, book-keeping and financial reporting, auditing and management consulting, it's not just that "they do things differently" in other countries, but that there are different cultures, markets, laws, languages and much more to consider.

With more than 25 years of cross-cultural experience, Ole Schmidt and Michael Brink Larsen will specialize in developing and fostering relationships with German-Danish businesses. Our goal is to help clients effectively structure their operations both in Germany and in Denmark.

Serving organizations in both Germany and Denmark for many years has given us an understanding of our clients' competitive environment and the issues they face. Ole Schmidt and Michael Brink Larsen say. "We are looking forward to leading the firm's Germany services desk and utilizing the Baker Tilly International network to provide exceptional client service experience and tailored business solutions."

Partners and employees in Denmark can advise you, not only in the respective national language but also, in addition, in German and/or English. By so doing, we can exclude the possibility of comprehension difficulties and sources of errors from arising in the particular area of expertise.

Contact us

If you are considering investing in Denmark and thereby gaining access to the market's many opportunities, our consulting team will help you break down the economic and cultural barriers. We can, among other things, help establish companies and advise on tax matters. Our team consists of experienced specialists who all know the business culture. The Baker Tilly German Desk is your "one-point" contact to the Danish market.
