World's best country for business

Denmark is one of the easiest places in the world to do business. You can set up a business in one day, and have residence and work permits issued in five weeks. Foreign companies will benefit from an easy plug 'n play registration when setting up a business in Denmark. Not only is Denmark praised as being one of the best markets in the world, it also praised for having world-class IT infrastructure. The extremely low level of corruption makes Denmark an attractive location for doing business and the safe choice for your investment.

Now, for tomorrow
