

Goods and Services Tax (“GST”)

April 2025

In today’s dynamic economic landscape, businesses are continually seeking ways to optimise their operations and financial strategies. One key aspect that requires careful consideration is the **Goods and Services Tax (“GST”)** and its equivalents. With the widespread adoption of such consumption-based tax system by more than 170 countries, businesses find themselves navigating through intricate tax regulations and practices.

A strategic focus on GST not only ensures compliance but also presents businesses with an opportunity to streamline operations, enhance financial transparency and maintain customer relationships. Recognising the pivotal role of GST and its potential impact on a business’s bottom line has become an imperative for businesses aiming to thrive in an ever-evolving market. Businesses should therefore take a proactive approach in ensuring effective management of GST.
