

# Green procurement policy

The objective of this policy is to minimize negative environmental impacts and support sustainable development by integrating environmental performance considerations into the procurement decision-making process.

To achieve this policy, Baker Tilly Hong Kong commits to:

1. Purchase products:
  - with eco-label where applicable;
  - with greater energy and water efficiency;
  - which reduce waste and support reuse and recycling;
  - which reduce toxic and hazardous chemicals and substances;while maintaining best value for the company;
2. Raise staff awareness on the environmental issues affecting procurement by providing relevant information;
3. Encourage suppliers and contractors to offer environmentally preferable products and services at competitive prices; and
4. Comply with all environmental legislative and regulatory requirements in the procurement of products and services.

This policy is subject to a regular review on an ongoing basis as technology advances permit and as more products incorporate environmental considerations.
